REFUSE

All other opala goes into your gray/green refuse cart, including:

- Plastic bags
- Styrofoam
- Junk mail or magazines
- Telephone books
- Cereal boxes and other chipboard
- Paper other than newspaper and corrugated cardboard
- Plastic containers other than #1 & #2 (plastic codes 3 through 7)

These low-grade papers and plastics are combustible and provide greater benefit to the island in local energy production than shipping to distant markets to be made into new products.

- Tin or steel food cans; aluminum foil and pans
- No need to sort. Metals are extracted and recycled at H-POWER.*
- Ceramics, dishes, glassware, window glass, light bulbs, mirrors

Tips for sorting and recycling:

- Set aside an area in your kitchen, perhaps under the sink, to place a small collection container for mixed recyclables for your family's convenience. All of the recyclables can be mixed together, so all you need is a single container.
- Deposit mixed recyclables LOOSE into your cart. Avoid using bags.
- All material must fit in the cart with the lid closed. Carts with boxes protruding out the top cannot be collected, please flatten boxes.
